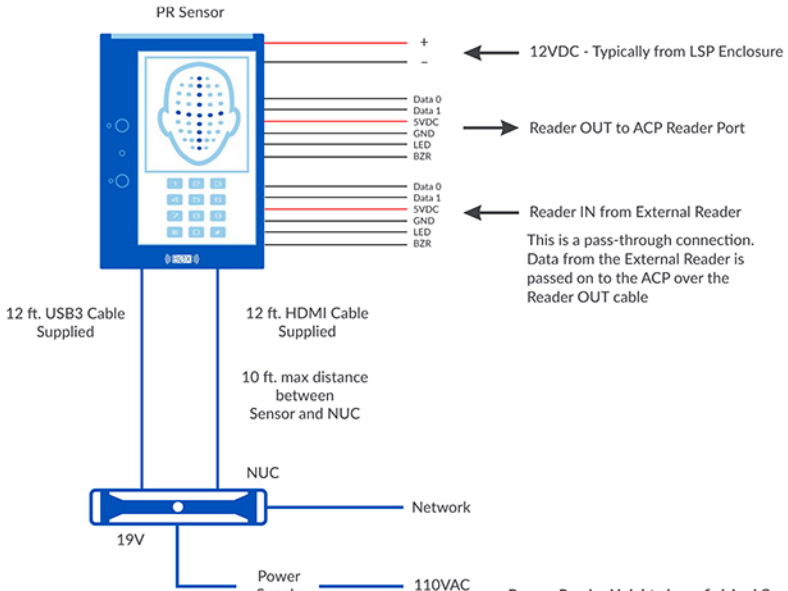
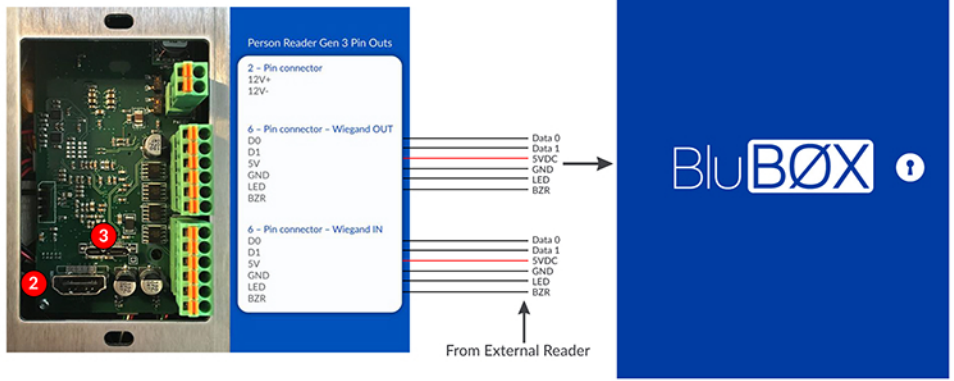
# Person Reader Version 3 - Wiring & Installation





**NUC Power Supply**
This power supply must be used to power the NUC

**Person Reader Height above finished floor (AFF)**

Optimum height AFF: Center of Camera at 36" to 64" AFF.
Doors: 52" AFF, accomodates touchscreen, intercom & barcode functions.
Turnstiles: 44" AFF, but on a slightly upward-looking angle.

Refer to the Physical Installation Diagrams for more Installation guidelines

1. NUC power port. Original power supply must be used for proper performance
2. HDMI cable connection, between PR and the NUC
3. USB 3.0 cable connection, between PR and the NUC
4. Network connection
